TWO BROTHERS. ONE VISION.

Phone: 800-815-9354
www.tropicoasis.com

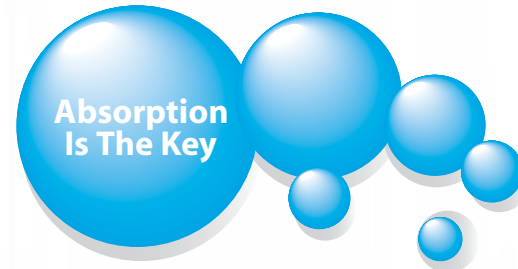

In the spring of 1996, two brothers set out to create a quality liquid vitamin with a single vision in mind.

To help people live healthier and more abundant lives through better nutrition. Since 1996 we've created a wide variety of dietary and nutritional products and made many improvements along the way, all with that original vision in mind. During this time our

commitment to that vision has never changed, in fact

it has grown stronger. With this in mind, we have made some important changes that have enhanced and improved our supplements. In the following pages you'll discover how we made our great supplements even better.

It's all about absorption at a cellular level. Our full spectrum nutrients are what nature intended the body to have. Tropical Oasis gives you a full range of plant constituents in the balanced proportion that nature intended.

ABSORPTION

Research has shown that micro-ionized particles suspended in liquid form are much more readily absorbed by the body, thus offering more positive health benefits.*

LIQUIDS

PILLS

DISCOVER HOW WE MADE OUR SUPPLEMENTS EVEN BETTER

We knew we had great supplements but we're always searching for ways to make our products even better. We now bottle all our supplements in glass for complete purity. We took purity one step further by providing a glass dosing cup with each supplement. We've enhanced the flavor of our products with Organoz™, an all natural flavoring that features zero sugars and brings the sweet taste of nature to every supplement. We use only certified organic aloe vera. All of our supplements are fructose free and we have never used sodium benzoate in any of our products. We then decided that all these improvements needed to be wrapped in a vibrant new label. With these improvements you'll discover that Tropical Oasis is better than ever.

Phone: 800-815-9354
www.tropicaloasis.com

Low Carbs • Low Calories

We Use Certified Organic Aloe Vera

Bottled In Eco  Friendly Glass

We've taken purity one step further by providing a glass dosing cup with every product.

All our supplements are fructose free and we have never used Sodium Benzoate.

Glass bottling maintains purity and eliminates the risk of possible contamination from the use of plastic containers.

We use only certified organic aloe vera in each and every supplement.

Use of "Organoz" our all natural flavor produces incredible sweetness and flavor. "Organoz" is 100% natural and has zero calories, and very low carbohydrates, and has a zero glycemic value which make it diabetic friendly.

HOW ORGANOZ™ MAKES TROPICAL OASIS EVEN BETTER

Phone: 800-815-9354
www.tropicaloasis.com

Organoz™, an all new, zero sugars and low calorie flavor, is the best nature can provide and is featured in all Tropical Oasis products. Using the magic properties of Stevia, Momordica, Xylitol, and other natural flavors, Organoz™ brings incredible sweetness and flavor to each and every drop of our fine supplements. The use of Organoz™ keeps calories and carbohydrates low and gives Tropical Oasis products a low glycemic value which make it great for diabetics and people of all ages.

MULTIPLE VITAMIN MINERAL

FOR ADULTS

Amino Acids & Herbs
All In One Dietary Supplement
Cranberry Aloe Vera Flavor

Phone: 800-815-9354
www.tropicaloasis.com

A great tasting multiple vitamin mineral formula with over 125 nutrients, complete with protein, amino acids and herbs.

- Some scientific evidence suggests that consumption of anti-oxidant vitamins may reduce the risk of certain forms of cancer.*
- 0.8 mg folic acid in a dietary supplement is more effective in reducing the risk of neural tube defects than lower amount in foods in common form.**
- As part of a well balanced diet that is low in saturated fat and cholesterol, Folic Acid, Vitamin B6 and Vitamin B12 may reduce the risk of vascular disease.***

* FDA has determined that this evidence is limited and not conclusive.

**FDA does not endorse this claim. Public health authorities recommend that women consume 0.4 mg folic acid daily from fortified foods or dietary supplements or both to reduce the risk of neural tube defects.

*** FDA evaluated the above claim and found that, while it is known that diets low in saturated fat and cholesterol reduce the risk of heart disease and other vascular diseases, the evidence in support of the above claim is inconclusive.
